WHO AM I?

A 21 year old guy from the Netherlands who's looking to get his first job as a Software Engineer. Interest in IT started around 3 years old and it's only been getting better. Please check out my Github to see my work.

Git
Linux
C
Java
Firebase
Angular

CERTIFICATIONS

10/2019	**Information Systems Foundation**	**EXIN**
	Required basic skills for working with Information Systems.	
6/2020	**AMBI e-CF Infrastructure**	**EXIN**
	Required knowledge to understand the used infrastructures in most organizations.	

EXPERIENCE

7/2012 – 6/2018
Part time

Part-time Production Employee — de Bruijn Tomatoes
This company grows a lot of tomatoes and during this time I was responsible for harvesting and other work in the greenhouse. During this time I have learned to work with people from all over Europe and even some people from outside of Europe.

6/2018 – 6/2019
Full time

Full-time Production and Logistics Employee — de Bruijn Tomatoes
During this time I was responsible for managing small groups of production employees and even operated a big sorting machine. I also worked as a forklift operator during the harvesting period.

6/2019 – Now
Part time

Part-time Production Employee — Greenway
At this company I have operated the packing machine, a forklift and I have even been responsible for fixing a couple of outages in the greenhouse.

EDUCATION

2010 – 2016

High School — St. Stanislascollege Delft
Finished a HAVO degree with a focus on Physics and Science.

2019 – Now

Bachelor's Degree — Leidse Onderwijsinstellingen
Working towards a degree in Computer Engineering. This is an online community college where I study part-time. Planning to finish in 2023.

LANGUAGES

Dutch - native
English - proficient

HOBBIES

I love to code on my computer and figure out how things work. This also involves running Linux on all my computers and starting to make a nice dotfiles repository. I have also been trying to learn how to play electric guitar and I'm starting to get a little bit better.

NON PROFIT

Currently getting started with contributing to open source projects. For my work please see github.com/luuk180.
